

The Medical University of Graz takes a holistic view of the human being. We are committed to supporting, accompanying and training the people entrusted to us and promoting their development.

We are looking for employees with an innovative spirit who would like to help us fulfill our overriding mission of promoting the health and well-being of our patients through research, teaching, learning and administrative support.

"Pioneering Minds - Research and Education for Patients' Health and Well-being" is the strategy and mission that keeps us moving forward.

Become part of an extraordinary team:

## **Tenure Track Professor of Clinical and Molecular Hematopathology**

**Diagnostic and Research Institute of Pathology**

Full-time position (100%)

Limited to 6 years

We are looking for an excellent specialist and scientist with great potential to expand and represent our internationally acclaimed clinical and molecular hematopathology program in diagnostics, research and teaching.

The successful candidate should be willing to engage in interdisciplinary and interprofessional cooperation between different specialist areas as well as with occupational groups that provide technical medical services.

The initial appointment is limited to six years. After the conclusion of a qualification agreement, the career advancement goal is to transfer to a tenured position as an associate professor (tenure track professor pursuant to § 99 para. 5 and 6 of the Universities Act). If the candidate demonstrates outstanding and remarkable achievements, the qualification agreement may be fulfilled more quickly.

### **Core duties and responsibilities:**

- Innovatively advancing clinical research, basic research and diagnostics in the field of clinical and molecular hematopathology
- Performing diagnostics in all areas of hematopathology
- Setting up and managing a research group in clinical and molecular hematopathology
- Designing, acquiring, implementing and managing funded research projects
- Writing and publishing high-quality scientific papers
- Teaching undergraduate and graduate courses, supervising diploma and PhD students and mentoring and promoting young researchers
- Establishing and maintaining networks through local, national and international research collaborations

- Giving lectures and seminars, attending conferences, hosting visitors and organizing conferences in the field
- Supporting scientific and public outreach in her/his research area (public lectures, media, etc.)

**Successful candidates must have the following qualifications and skills:**

- Degree in medicine
- Authorization to practice as a pathologist
- Specialization and several years of practical experience in the field of diagnostic hematopathology
- Extensive research expertise in the field of clinical and molecular hematopathology
- Proven track record of high impact publications and third-party funding acquisition
- Proven track record of teaching and lecturing especially in the field of clinical and molecular hematopathology
- Great willingness to engage in interdisciplinary and interprofessional cooperation
- High level of proficiency in both written and spoken German and English (proficiency level C1)

**The ideal candidate has the following profile:**

- Experience in leading a diagnostic/scientific working group
- Research stay abroad of several months at a different research institution than the one where he/she was educated in the specialty area
- Ability to inspire colleagues and students
- Responsible work habits, resilience and ability to solve problems
- Organizational skills, team orientation and empathy
- Good communicative and social skills

**Application:**

Med Uni Graz invites all applicants to submit their application online by **04 August 2022**.
